Overview

Large public bancassurer

Wholly owned by
LA POSTE GROUPE

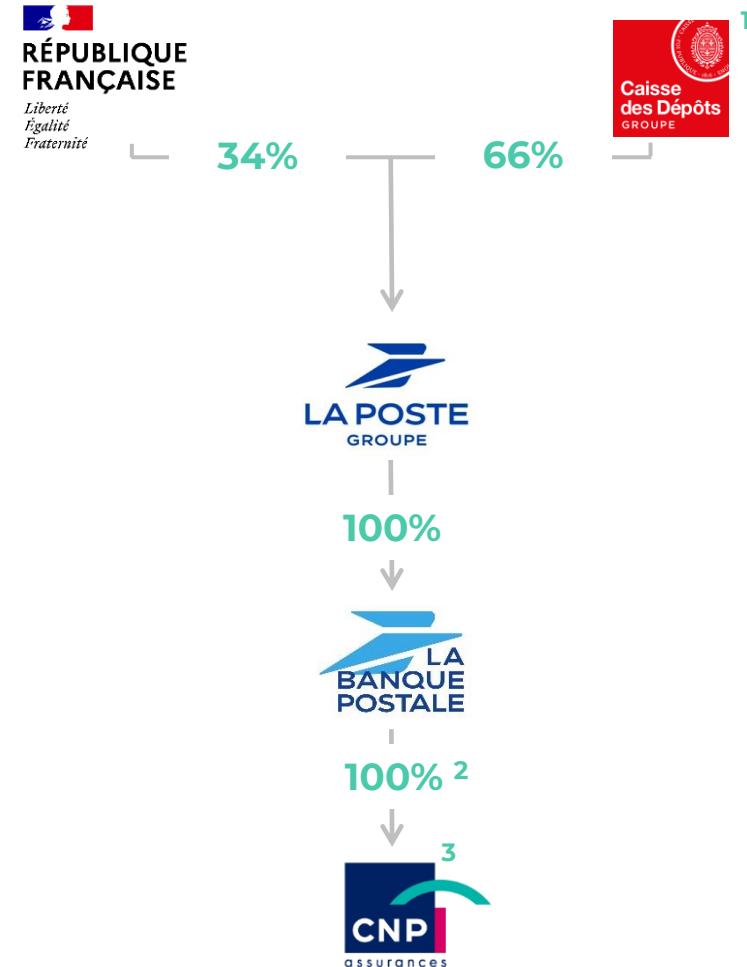

Banking and insurance services
distributed by
LA POSTE NETWORK

A strategic public service mission:
BANKING ACCESSIBILITY

Ownership structure

¹ Caisse des Dépôts and its subsidiaries constitute a State-owned group serving the public interest and the country's economic development. The Group fulfils public interest missions in support of public policies implemented by the State and local authorities and may engage in open market activities. (Article L. 518-2 of the French Monetary & Financial Code)

² Since end of June 2022

³ On April 11, 2023, creation of CNP Assurances Holding with the transfer of La Banque Postale's insurance businesses (La Banque Postale Assurances IARD, La Banque Postale Prévoyance, La Banque Postale Conseil en Assurances which are 100% owned by CNP Assurances Holding & La Banque Postale Assurance Santé 51% owned by CNP Assurances Holding, 14% by Malakoff Humanis and 35% by La Mutuelle Générale) along with CNP Assurances activities

A diversified bancassurance group

Leader in impact finance

Rated 74/100 by **Moody's ESG Solutions** (1st banking group worldwide and 8th company worldwide out of 4,770 companies rated)

AAA score from **MSCI** (among the **6% of banks rated AAA** worldwide)

A score from **CDP¹** for the 2nd year running for its climate commitment
One of the few European banks to have obtained this score

Low-carbon pathways approved by **SBTi** since 2021:
85% of CIB loan book² aligned with a **low-carbon target consistent with the Paris Agreement**

Residential real estate | Commercial real estate | Corporate bonds | MLT corporate loans

Exit from the fossil fuel sector by 2030

La Banque Postale only finances companies that have a science-based transition plan

Net-Zero Banking Alliance: founding member re-elected for a 2nd term as the representative of European banks in the Steering Group

Net zero emissions target for the entire banking business **by 2040³**

Low-carbon pathways in carbon-intensive sectors⁴ (Scope 3)

Effective 1.5°C alignment pathways

- **Coal**
→ 0 net exposure since 2018
- **Electricity production**
→ 100% renewable energy

Paris Agreement alignment pathways

- **Residential real estate**
- **Commercial real estate**
- **Automotive**
- **Aviation**
- **Cement**

Alignment with **1.5°C by 2030**

- **Oil & Gas**
→ Low exposure (€2.3m at year-end 2022)

At the level of La Banque Postale SA

¹ Details on non-financial ratings are provided in the appendices

² Eligible for SBTi methodology, end-2020 data

³ Subject to the progress made by governments and economic actors

⁴ The Net-Zero Banking Alliance has identified 9 sectors with high greenhouse gas emissions ("carbon intensive" sectors) that should be given priority when banks are determining low-carbon pathways: agriculture, aluminium, cement, coal, real estate, iron and steel, oil and gas, power generation and transport

Committed player in impact investing

Cross-cutting policies contributing to the Group's community ambitions across all business lines

Climate policies

- **2030 → 80%** of the investment portfolio* aligned with the Paris Agreement

Energy policies¹

- **2030 → 0** exposure to OECD companies whose business is exposed to thermal coal, **100%** of assets invested in oil and gas sectors aligned with a carbon neutral pathway
- **2040 → 0** exposure to companies whose business is exposed to thermal coal

Biodiversity policies

- Biodiversity systematically integrated in our analysis and stock picking processes, in the design of our offers and in our shareholder commitment to control impacts and dependencies

¹ Only applied to new money at CNP Assurances

² 100% of open-ended funds have been awarded the French SRI label

³ Based on number of funds

⁴ Tocqueville Silver Age SRI, LBPAM SRI Actions Environnement, LBPAM SRI Actions France, LBPAM SRI Actions Solidaire, LBPAM SRI Human Rights

⁵ Federis SRI Actions US, LBPAM SRI Actions Amérique, Federis SRI Euro

⁶ Data at 31 December 2022

⁷ Green bonds, energy or environment-labelled buildings, forests, funds classified under Article 9 of the SFDR with an environmental sustainability objective, infrastructure assets and unlisted companies (private equity) whose main business is related to the environment. The definition of these green investments is broader than in the European taxonomy. Figure at 30 June 2023

* LBP AM scope

LBPAM

100% SRI² offer

- 101 open-ended funds with SRI label (#1 in France³)
- **€28.8bn** in assets under management
- Socially responsible range **5** charity and solidarity-based funds⁴

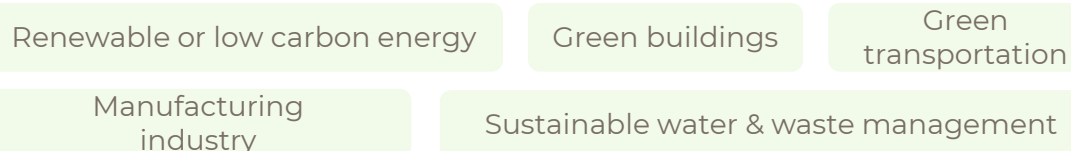

Responsible insurer and investor

- **49%** decrease in the carbon footprint of the investment portfolio (2022 vs. 2019)
- **99.9%** of traditional savings account investments incorporating ESG criteria⁶ (Article 8 of the SFDR)
- **€25.9bn** worth of green investments in energy and environmental transition projects⁷
- **42%** of forestry assets (by surface area) subject to a biodiversity measurement using a recognised method (Potential Biodiversity Inventories)

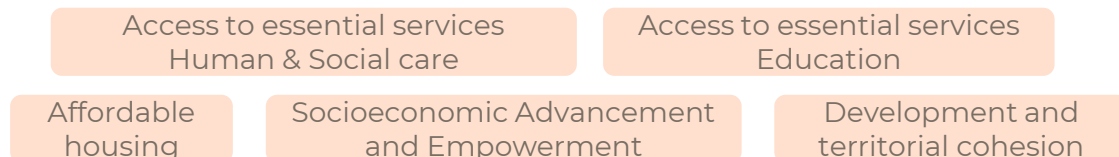

LBP's Green Social Sustainability (GSS) Bond Framework

The Framework has been developed according to the **following latest market standards** : ICMA's GBP, SBP, SBG, Harmonised Framework for Impact Reporting and EU Green Taxonomy

- ✓ The New GSS Bond Framework includes **5 green loan categories** (covering 56 EU taxonomy activities) ...

- ✓ ... and **5 social loan categories**

ICMA Green Bond Principles Pillars

Main evolutions compared to the previous Green, Social & Sustainability Framework

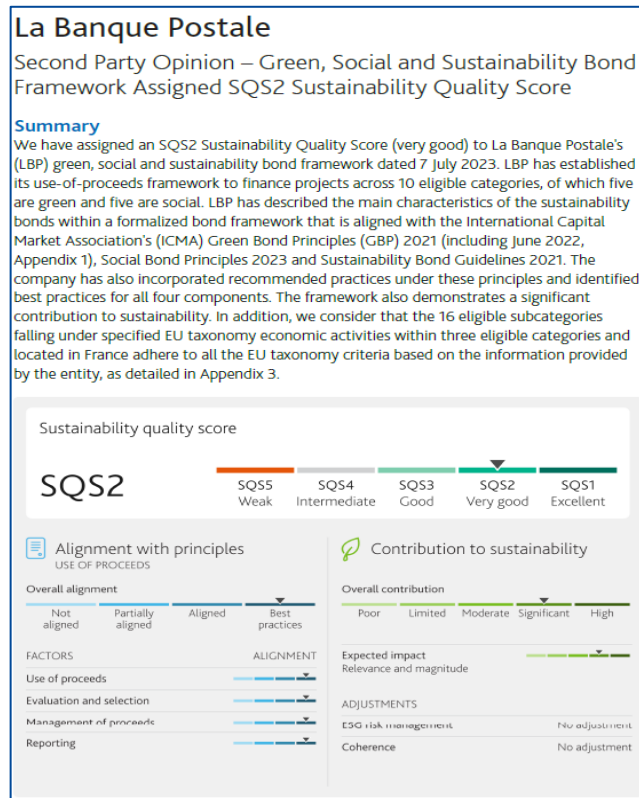

- **Sixteen green activities** for which the SPO has verified that they can be **aligned with the EU Green Taxonomy** 
- Within the framework La Banque Postale is adding new categories such as **Sustainable Water and Waste Management, Manufacturing industry** or **Development and territorial cohesion**
- Strengthening of the **ESG risk process**

SPO of LBP's GSS Bond Framework ...

... including assessment of LBP's EU Taxonomy alignment evaluation process

MOODY'S
INVESTORS SERVICE

- The Framework has obtained the **SQS2-Very Good rating** by the Second Party Opinion (SPO), MIS
- According MIS, the Framework is **aligned with the best market practices** for the four main components of the ICMA Green and Social Principles

ZOOM ON EU TAXONOMY ASSESSMENT¹

- Moody's considers that **the 16 eligible subcategories** falling under specified EU taxonomy economic activities within three eligible categories **adhere to all the EU taxonomy criteria**
- A **portion of eligible investments¹** have been assessed: assets located in France, and assets falling under specified taxonomy activities within:
 - **Green buildings**
 - **Renewable energy**
 - **Clean transportation**

¹ Slides in Appendices

“ The framework demonstrates a significant contribution to sustainability ”

Overview of green eligibility criteria vs the EU Taxonomy

H1 2022 figures restated following the application of IFRS 17 (see methodology in the Appendices section)

¹ RONE = Attributable net profit / Average risk weighted assets capitalised at 14%. RONE at 31/12/2022 = Attributable net profit at 31/12/2022 / Risk weighted assets at 31/12/2022 under IFRS 17.

Higher revenues

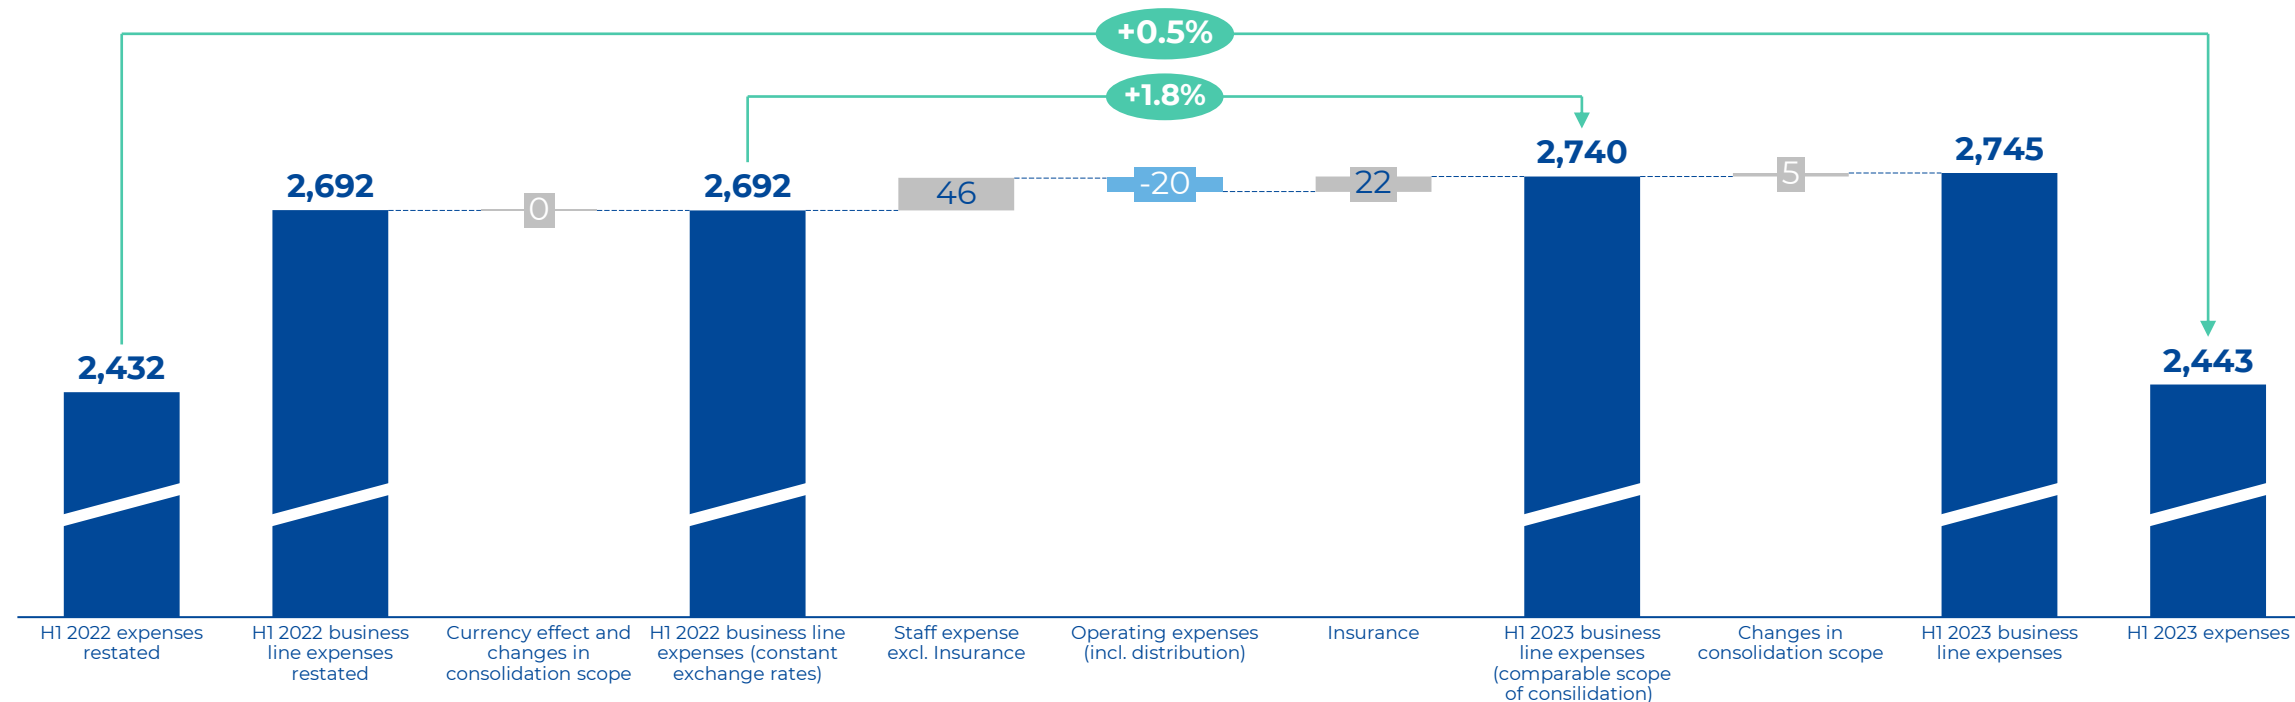

(in € millions)

- Growth in Insurance NBI supported by improved financial markets and higher gross inflows in France notably
- NIM impacted (-€220m i.e. -20%) by the rise in regulated savings interest rate and the pressure on credit margin linked to the application of the usury rate
- Commissions unchanged in a context of the decision to freeze bank charges for the full year 2023

Expenses under control in an inflationary environment

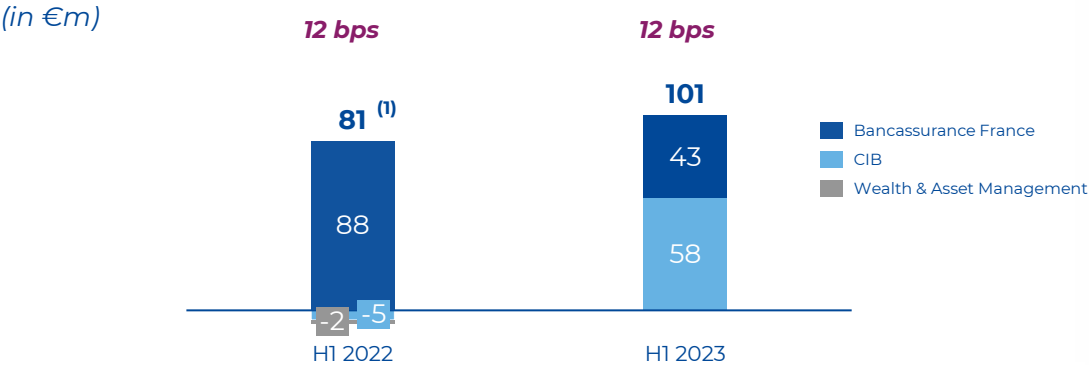

(in € millions)

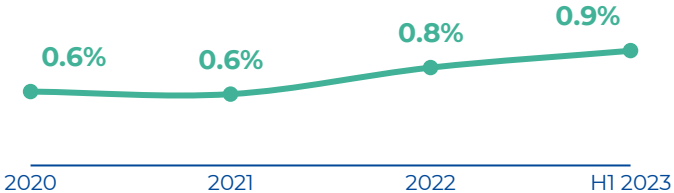

- Ongoing development of diversification businesses: CIB and et private banking
- Consolidation of non-life insurance subsidiaries into CNP Assurances Holding
- Decrease in Single Resolution Fund contribution (-€35m) recorded in the Corporate centre

Controlled risk profile

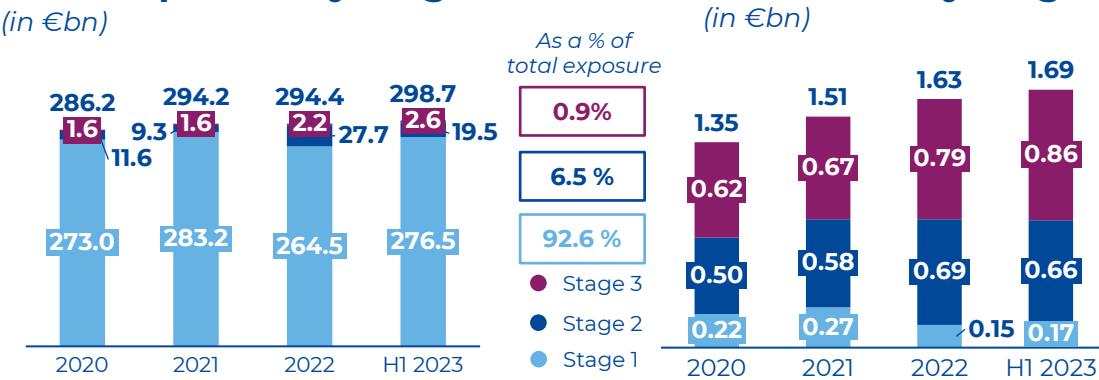

Low cost of risk

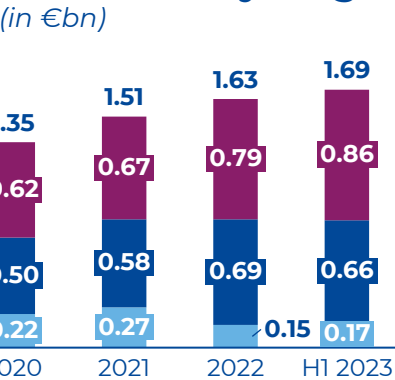

Structurally low NPE rate

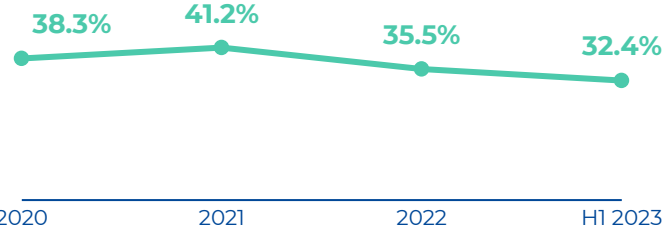

Total exposure by stage

Provisions by stage

Satisfactory NPE coverage rate

Business line performances

Bancassurance France

Financial results

(in € millions)	H1 2022 restated	H1 2023	Change vs. H1 2022 restated	Change vs. H1 2022 (like-for-like)
Net banking income	2,354	2,955	25.5%	25.5%
Operating expenses	(2,162)	(2,195)	1.5%	1.4%
Gross operating profit	192	760	x 4.0	n.a.
Cost-income ratio	92.3%	74.6%	-17,7 Pt	-17,8 Pts
Cost of risk	(88)	(43)	-51.1%	-51.1%
Operating profit	104	717	x 6.9	n.a.
Profit before tax	106	681	x 6.4	n.a.
Attributable net profit	157	353	x 2.3	72.2%

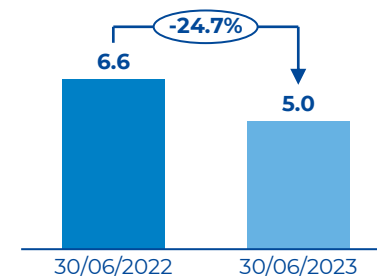

- Higher results thanks to **improved financial markets** and a base effect in 2022
- Sound gross inflows in **life insurance (+14.5%)**
- Decrease in **home loan originations (-24.7%)** due to a contraction in the real estate market and rising interest rates; stable market share at 5.5%¹ (as a proportion of retail home loan outstandings)
- **NIM** impacted by the rise in regulated savings interest rate and the pressure on credit margin linked to the application of the usury rate
- **Positive jaw effect**

Recognised ESG policy

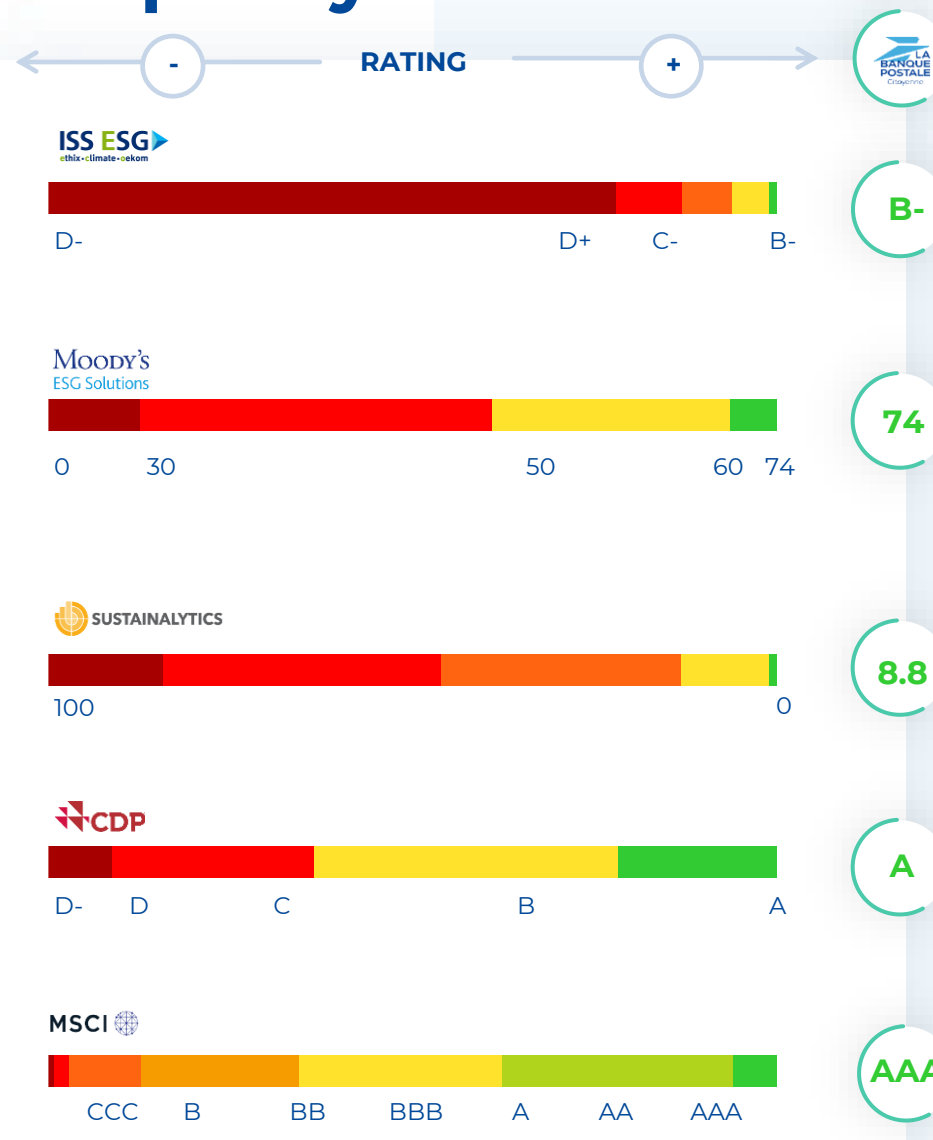

The only French bank to achieve an **A score** on the 2022 CDP Climate Change questionnaire, reflecting the soundness of its climate protection strategy

Re-elected to the Net-Zero Banking Alliance's Steering Group, representing 71 European banks

Date of most recent rating: ISS ESG (01/2023), Moody's ESG Solutions (06/2023), Sustainalytics (04/2022), CDP (2022), MSCI (05/2023)

In the **Top 3 worldwide** in the “Public and Regional Banks” category (271 banks rated)

Best bank in the “Retail and Specialised Banks” category (95 banks rated)
Leading bank worldwide and **8th company worldwide** (4,770 companies rated)

Leading French bank and 4th worldwide in the “Diversified Banks” category (416 banks rated)
 In the **Top 100** of the Sustainalytics universe (approximately 15,000 companies rated)

Ranked among the 2% of companies with an A score worldwide and among the 24 French companies with an A score

Ranked among the top 6% of AAA-rated banks worldwide (out of a total of 196 banks)

Substantial Contribution Criteria

Climate change mitigation (1/2)

Adherence assessment for activities 7.1, 7.2, 7.7, 4.1, 4.2, 4.3

Eligible Category	Corresponding EU Taxonomy economic activity	Adherence to "Substantial contribution" for Climate Change Mitigation	Related issuer information
Green Buildings	Important note on the Green Buildings category: This category displays two parallel sets of eligibility criteria, only one of which is Taxonomy-related. This adherence assessment relates only to the portion of projects within the category following Taxonomy criteria.		
	7.1. Construction of new buildings	Adhere	Criterion 1: The issuer confirms that the Primary Energy Demand (PED) of buildings will be at least 10 % lower than the threshold set for the nearly zero-energy building (NZEB). In the French context, in accordance with government guidance, compliance with the RE2020 building standard is considered to meet the NZEB -10% taxonomy criterion.
		Adhere	Criterion 2: Buildings above 5000m2 will undergo testing for air-tightness and thermal integrity.
		Adhere	Criterion 3: The life-cycle Global Warming Potential (GWP) will be calculated for buildings above 5000m2.
	7.2. Renovation of existing buildings	Adhere	The issuer confirms that building renovations will comply with applicable EU requirements and/or lead to a reduction of primary energy demand (PED) of at least 30%.
	7.7. Acquisition and ownership of buildings	Adhere	Criterion 1: Buildings built before 31 December 2020 will have an EPC class A or be within the top 15% of the national or regional building stock expressed as operational Primary Energy Demand (PED).
		Adhere	Criterion 2: The issuer reports that for buildings built after 31 December 2020, the building will meet the criteria specified in the Taxonomy under 7.1.
		Adhere	Criterion 3: Large non-residential buildings will be efficiently operated through energy performance monitoring and assessment, in line with the third criterion.
Renewable Energy	4.1. Electricity generation using solar photovoltaic technology	Adhere	Solar electricity will be generated using photovoltaic (PV) technology only.
	4.2. Electricity generation using concentrated solar power (CSP) technology	Adhere	Solar electricity will be generated using concentrated solar power (CSP).
	4.3. Electricity generation from wind power	Adhere	Electricity will be generated only from wind-based (onshore and offshore) resources.

Substantial Contribution Criteria

Climate change mitigation (2/2)

Adherence assessment, activities 6.1, 6.2, 6.3, 6.4, 6.5, 6.7, 6.10, 6.11, 6.13, 6.15

Eligible Category	Corresponding EU Taxonomy economic activity	Adherence to "Substantial contribution" for Climate Change Mitigation	Related issuer information
Clean Transportation	6.1. Passenger interurban rail transport	Adhere	For activities 6.1 and 6.2, the issuer confirms that trains and passenger coaches have zero direct (tailpipe) CO2 emissions or that they are bimodal. The issuer has visibility on specific assets financed under these activities through acquisition contracts with the constructor.
	6.2. Freight rail transport	Adhere	
	6.3. Urban and suburban transport, road passenger transport	Adhere	The investments in public transport will be limited to zero-tailpipe emissions vehicles.
	6.4. Operation of personal mobility devices, cycle logistics	Adhere	Criterion 1: The propulsion of financed devices will come from the user or a zero emissions motor.
		Adhere	Criterion 2: Devices can be operated on bicycle and pedestrian infrastructure.
	6.5. Transport by motorbikes, passenger cars and light commercial vehicles	Adhere	The investments will include vehicles with emissions lower than 50g CO2/km or zero emissions vehicles.
	6.7. Inland passenger water transport	Adhere	The vessels will have zero direct (tailpipe) CO2 emissions or, for hybrid and dual fuel vessels, will derive at least 50% of their energy from zero direct (tailpipe) CO2 emission fuels or plug-in power. One of the investments under this activity are cruise ships using wind energy (sails).
	6.10. Sea and coastal freight water transport, vessels for port operations and auxiliary activities	Adhere	The issuer confirms that no container or bulk carriers based on fossil fuels will be financed. Vessels will either be zero emissions according to point (a) of the Taxonomy criterion, or will have emissions at least 50% lower than the average reference CO2 emissions value defined for heavy duty vehicles (vehicle sub group 5-LH) in accordance with Article 11 of Regulation 2019/1242, as per point (c) of the Taxonomy criterion.
	6.11. Sea and coastal passenger water transport	Adhere	Vessels will either be zero emissions (e.g. cruising sailboats) or hybrid and dual fuel vessels deriving at least 25% of their energy from zero direct (tailpipe) CO2 emission fuels or plug-in power
	6.13 Infrastructure for personal mobility, cycle logistics	Adhere	Infrastructure planned under this eligible activity consists of, and is limited to, bicycle parking stations.
	6.15. Infrastructure enabling low-carbon road transport and public transport	Adhere	The specific infrastructure planned under this eligible activity consists of, and is limited to, electric vehicle charging points.

Methodology: Application of IFRS 17

GENERAL PRINCIPLES

IFRS 17 – Insurance Contracts is applicable retrospectively in accordance with IAS 8; it replaces IFRS 4 for annual reporting periods beginning on or after 1 January 2023. Comparative figures for the first half of 2022 and the year ended 31 December 2022 have therefore been presented on a pro forma basis in the consolidated financial statements of La Banque Postale Group. The transition impacts are recognised in equity using the three methods provided for in the standard:

- The Full Retrospective Approach (FRA), used for La Banque Postale Assurances IARD and for certain cohorts of CNP Assurances contracts;
- The Fair Value Approach (FVA), whereby insurance contracts are measured at fair value at the transition date and in line with the approach adopted on creating the major state-owned financial group announced on 4 March 2020. This approach is used for the majority of insurance contracts written by CNP Assurances, particularly savings and pensions contracts;
- The Modified Retrospective Approach (MRA), a simplified version of the FRA used for La Banque Postale Prévoyance.

Effective from the IFRS 17 transition date on 1 January 2022, a new balance sheet indicator was created – “Insurance contract liabilities” – comprising the following three components: the Best Estimate (BE), based on the discounted present value of future cash flows arising from insurance contracts; the Contractual Service Margin (CSM), which represents profits not yet recognised in the income statement; and the Risk Adjustment (RA).

PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS UNDER IFRS 17

The presentation of the financial statements has been adjusted in line with the new presentation of insurance activities required under IFRS 17.

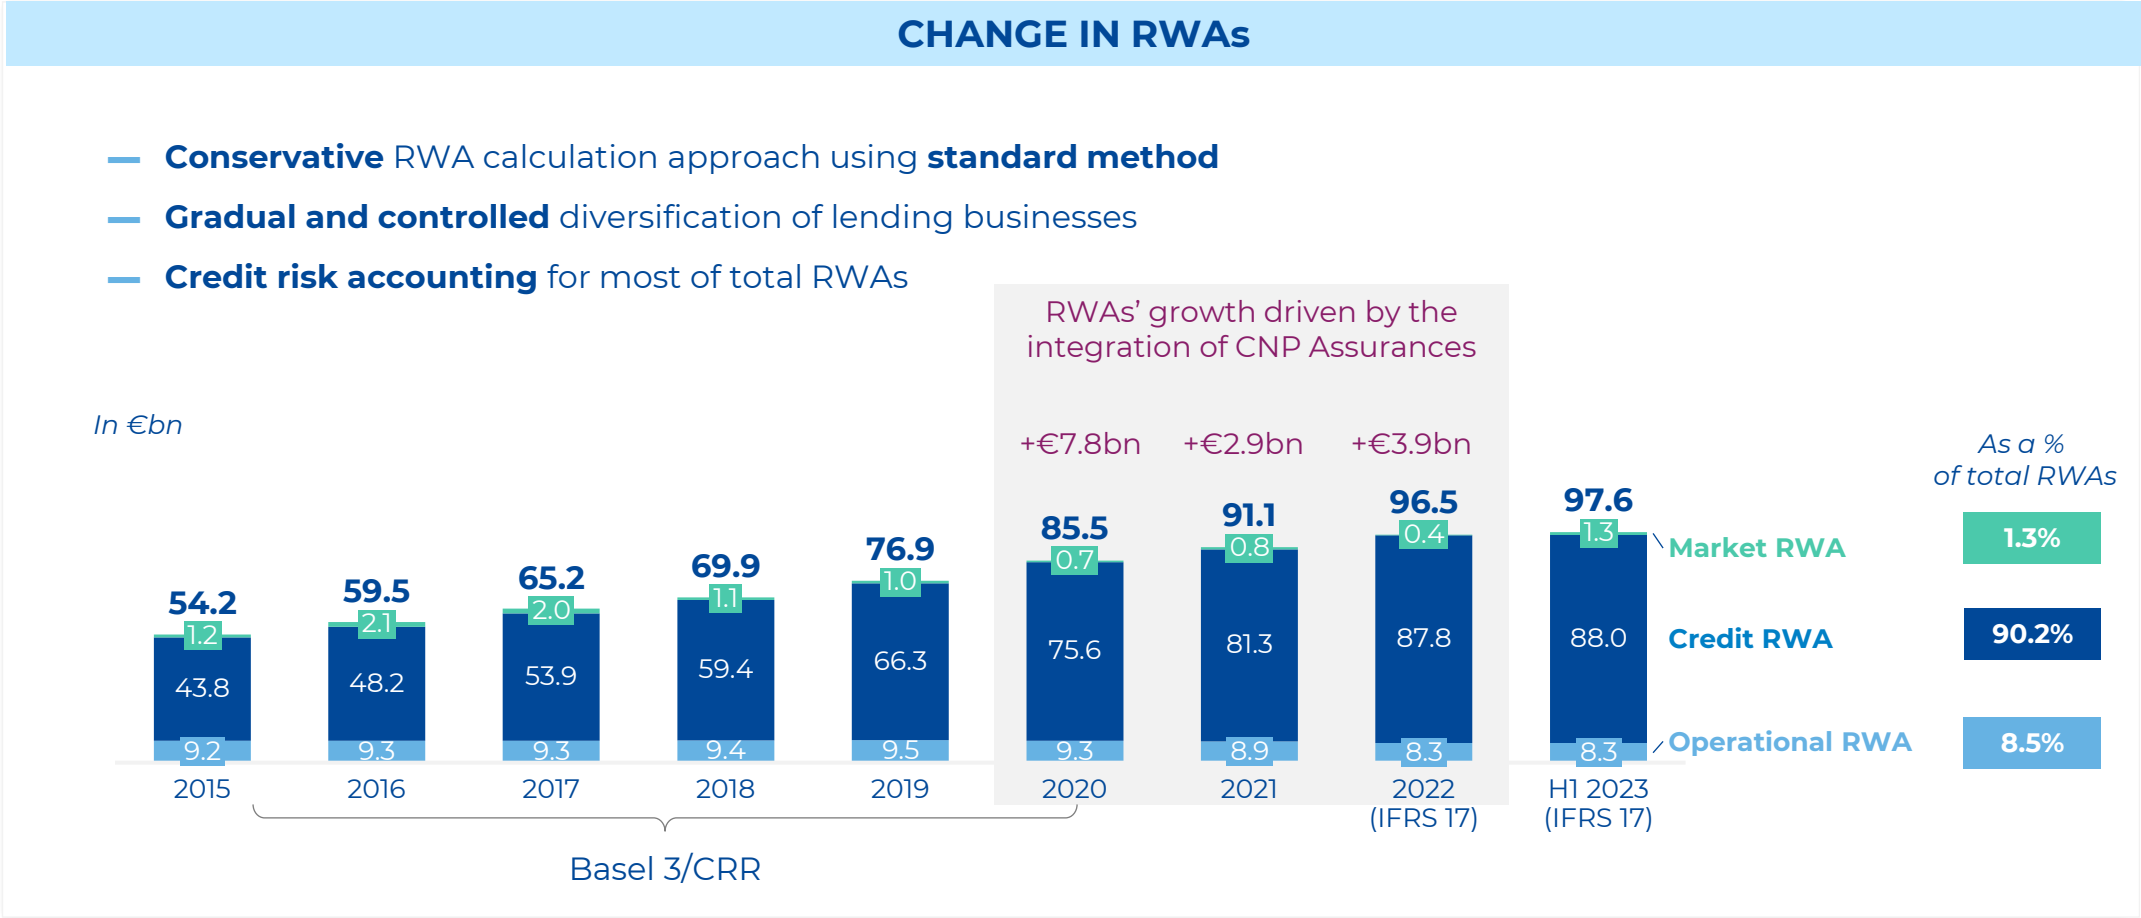

The main restatements applicable to the presentation of La Banque Postale Group's consolidated balance sheet are as follows:

- Cancellation of intangible insurance assets such as portfolios of insurance contracts and financial contracts with a discretionary participation feature previously recognised separately in the financial statements. These items are now included in the projected future cash flows from insurance contracts;
- Discontinuation of shadow accounting for deferred participation assets on the assets side and net deferred participation liabilities on the liabilities side;
- Discontinuation of the overlay approach permitted by IFRS 4 and chosen upon first-time application of IFRS 9. The effects of IFRS 9 now apply in full to the financial asset and liability portfolios of insurance entities;
- Measurement of equity instruments available for sale at fair value through other comprehensive income not reclassifiable to profit or loss;
- Value of investment property measured at fair value through profit or loss, in accordance with the option offered by IAS 40, as amended following the publication of IFRS 17, for hedges of savings and pensions contracts only.

The main restatements and reclassifications applicable to the presentation of La Banque Postale Group's income statement are as follows:

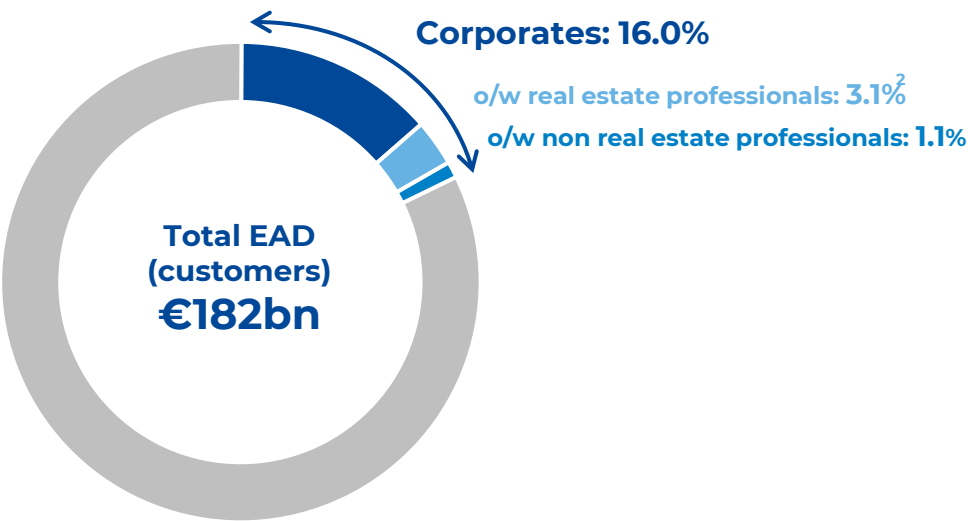

- Income and expenses relating to ceded insurance and reinsurance contracts are presented separately under net banking income (NBI);
- Expenses relating to the insurance contracts of insurance entities and those incurred by the Bank for insurance product distribution are presented by category as a deduction from NBI;
- The internal margin related to fees and commissions received by the Bank and expenses incurred by the Bank is reclassified to the "Corporate Centre" to give a clearer picture of the business lines within segment information;
- The cost of credit risk on financial investments of insurance activities is presented on a separate line as an insurance item in NBI.

Risk-weighted assets

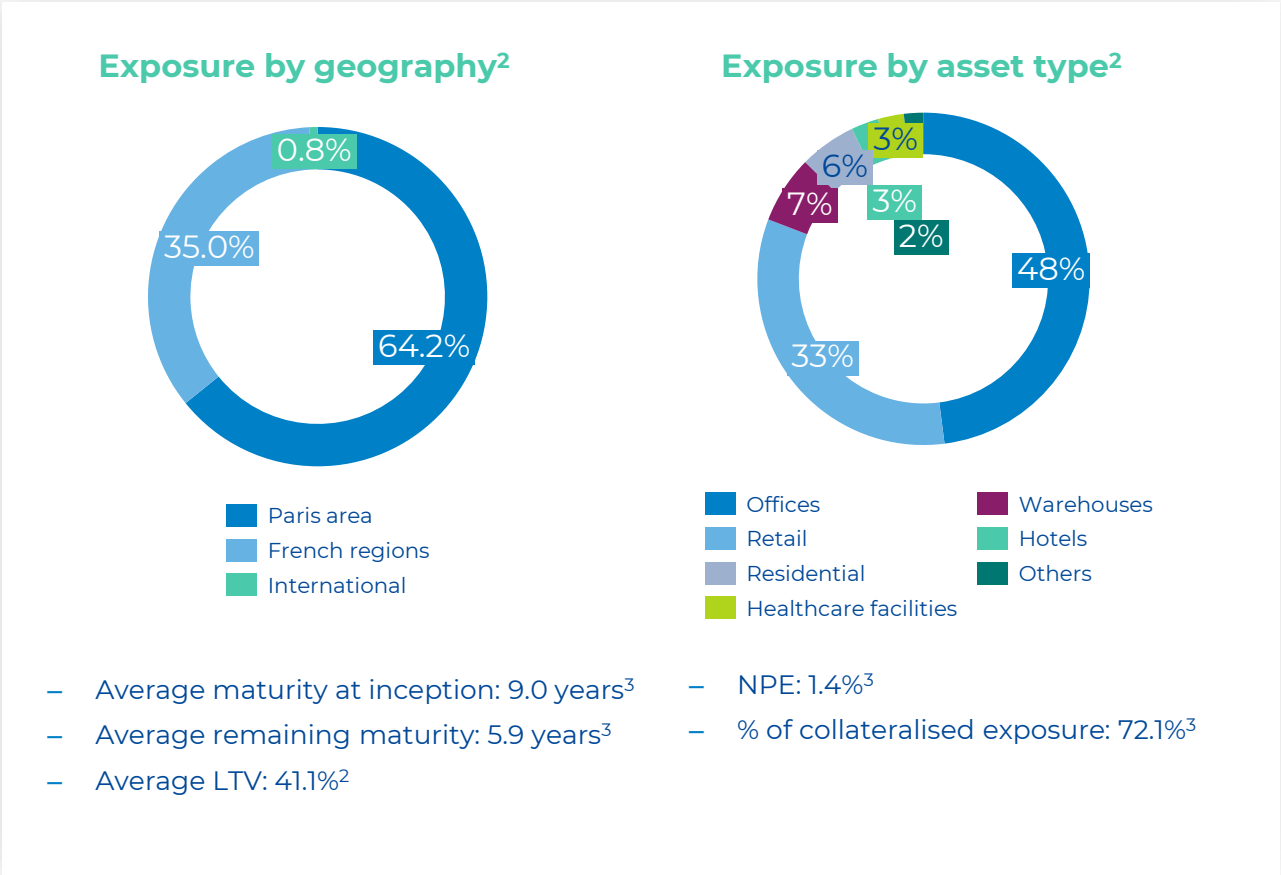

Commercial real estate: exposure concentrated on prime assets almost exclusively located in France

Share of commercial real estate financing in the portfolio

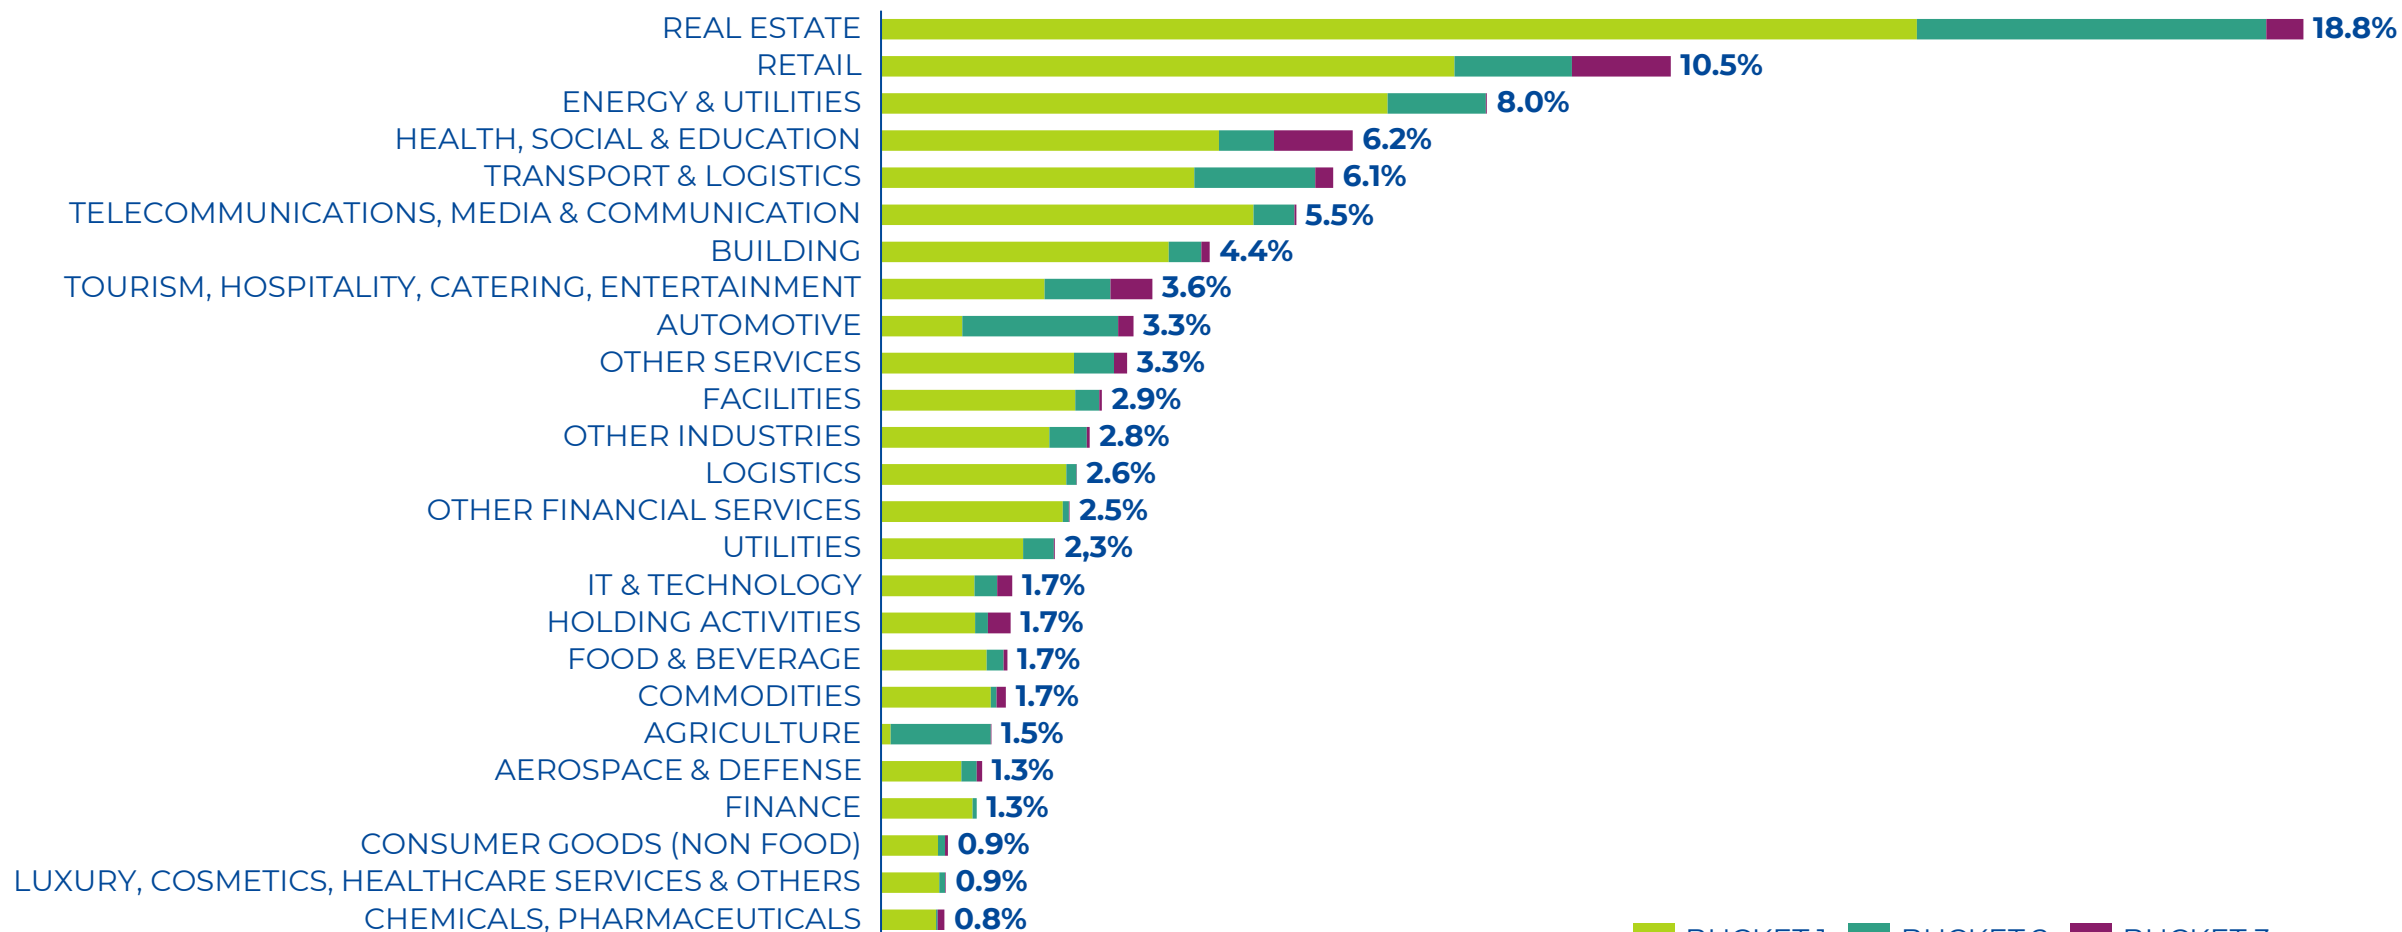

Unaudited management data

PUBLIC BENCHMARKS

(in €m)

Crédit Logement/Mutual Guarantee Fund (MGF)

Crédit Logement is a **market leader** on the French residential property market.

It guarantees home loans, in the form of a joint and several guarantee that **protects the lender against borrower default**.

In 2022, almost 346 519 property transactions were covered by a Crédit Logement guarantee, allowing them to finance their property purchase without a mortgage. (-23.3% of production vs. 2021 as home loan market is declining)

51% of LBP Home loans are guaranteed by Crédit Logement

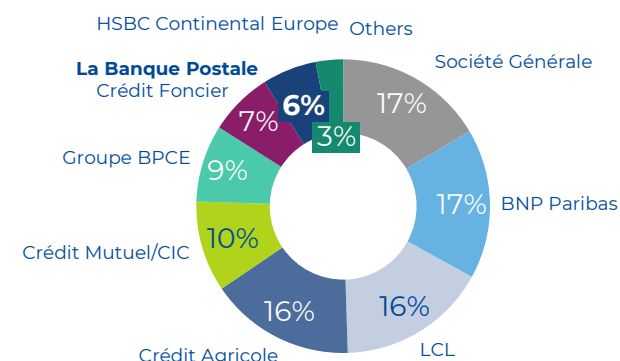

Crédit Logement

- Outstanding guarantees at the end of 2022: €429.7bn(+3,9%/2021) corresponding to 3,444,338 loans
- Long-term rating (Aa3/stable by Moody's and AA/low stable by DBRS)
- Backed by the French banking system in the last resort

Mutual Guarantee Fund (MGF):

- The Crédit Logement financial guarantee is based on the principle of pooling risk, with each borrower contributing to a Mutual Guarantee Fund (MGF):
 - The MGF provides the funds to repay the bank in case the borrower defaults
 - MGF: €6.9bn at the end of 2022

CRÉDIT LOGEMENT OWNERSHIP STRUCTURE

CREDIT LOGEMENT GUARANTEE: ADVANTAGES FOR LBP

- **No cost involved** and **automatic process** to obtain the guarantee approval
- **Excellent risk control** (a second risk review and dynamic benchmark)
- **Full and rapid compensation** when a guaranteed loan is in default
- **Recovery process fully managed** by Crédit Logement
- **Guaranteed home loans eligible to refinancing** via SFH
